

FE-340-H1

Flush-mount thermostat, 230VAC, for floor heating applications.

General

The FE-340-H1 thermostat for floor heating elements is perfectly suited for both commercial and residential applications.

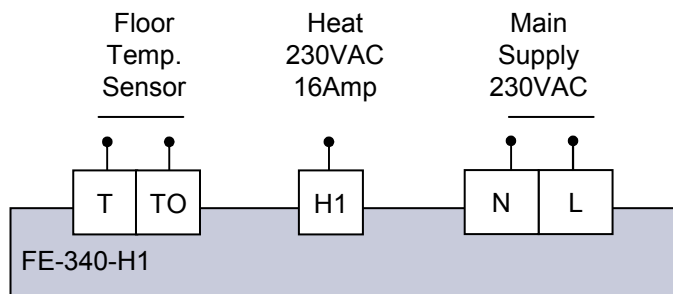

The FE-340-H1 thermostat, with an output for HEAT only (16Amp), has been specifically designed for FLOOR HEATING systems, making it a simple and affordable, yet efficient solution for the floor heating applications.

Features

- Main Supply - 230VAC
- Range 10-30°C
- Output for Heat Element ONLY- 230VAC, 16Amp
- External Sensor- option
- Offset – for temperature reading adjustment
- Fits into Standard Gewiss Box (GW24 203)
