

Meitav-tec's SUPER Thermostats - multiple configurations in a single product

Ultimate choice for wholesalers

Meitav-tec constantly endeavors to develop advanced, SUPER products, which offer numerous configurations and options in a single product to allow its clients both high standard and economy.

Keep in stock & instantly deliver to client

Indeed, Meitav-tec's SUPER thermostats feature high versatility and are therefore the ultimate choice for wholesalers or HVAC project contractors who can keep Super thermostats in stock to be supplied to client right away.

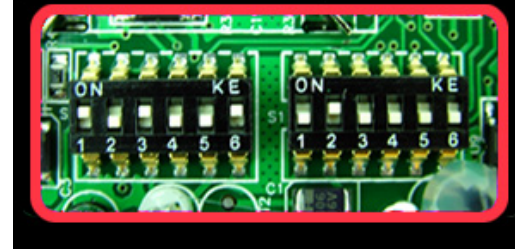

Solution for every application

Whether you need Heat/Cool, Heat Pump or Cool Only, 1 / 2 / 3 / 4 Cooling/ Heating stages, proportional/ on-off outputs, Meitav-tec's 'plug & play' thermostats have them all.

Using DIP switches, end-users can easily configure the thermostat according to their needs, such as, a 2-Pipe or a 4-Pipe application, with or without Auto-Change-Over mode, 1 or 3 fan speeds, internal / external sensor, etc.

Super thermostats offer:

- ✓ Versatility
- ✓ Easy, quick configuration
- ✓ High quality
- ✓ Reliability

Meitav-tec's SUPER thermostats are versatile, suitable for modern life, and at the same time, very easy and straightforward to use.

Take a look at some of them:

Thermostat name	Fan Speeds	Maximum Heating stages	Maximum Cooling stages	Cool/Heat output Type	Temp. scale C/F
ETN24-SUPER-SH/SF/SI	1 or 3	4	3	ON-OFF	C
FMH220-FC-SUPER3	3	1	1	ON-OFF	C/F
ETN24-PH-FC-SUPER	1,2 & 3	1	1	Cool – Prop.(0-10V) Heat – ON-OFF	C/F
ETN24-P-PD-FC-SUPER2	1,2 & 3	1	1	1 or 2 Prop (0-10V) Outputs	C/F
FMH220-P-FC-SUPER	1 or 3	1	1	Prop. (0-10V)	C
ETN24-PM2	1 or 3	1	1	Prop. (3 wire)	C
Programmable (Weekly Program)					
ETN24-SUPER-PROG-EU	1	3	2	ON-OFF	C/F
ETN24-SUPER-3S-FP-PROG-C-EU	3	1	1	ON-OFF	C

Super thermostats usually support these standard features:

- Remote Control operation
- Lock Button option
- Auto-Fan
- External Temperature Sensor input
- Adjustable Temperature Limits
- Auto-change-over
- Economy mode
- Emergency Heat algorithm
- Cool Only option

ETN - 24VAC, wall mount

FMH - 230VAC, flush mount

Note: 24VAC Super thermostats can be easily adopted to 230VAC system using Meitav-tec's PS-600,

a 230VAC to 24VDC Power Supply
