

## PS-104

### 230VAC – 12VDC Power Supply

#### General

**The PS-104 is a power supply for HVAC system. It converts 230VAC to 12VDC for thermostat operation and through relays, transfers commands from thermostat to operate HVAC system.**

**It offers 8 relay outputs to control HVAC system and 3 inputs for Temperature Sensors.**

#### Features

- Main Supply - 230VAC
- 8 x 230VAC outputs – each 6A (resistive), or 3A (inductive), total ≤ 9A
- 7 x 12VDC inputs
- 3 inputs for temperature sensors
- Inputs & outputs are terminal blocks, screw connector
